

Engagement for Outcomes

Building SIC Capacity to Achieve Results

Are you looking to grow your SIC into a respected and influential organization that is known for getting results?

Engagement for Outcomes helps SIC members gain the knowledge and skills they need to achieve results that lead to improved student achievement. This program is offered by the SC School Improvement Council (SC-SIC) at no cost to participating schools or districts.

Participating SICs receive ongoing, individualized assistance as they practice using strategic planning concepts and tools to:

- **better understand their school's needs and strengths;**
- **learn about their schools' current improvement goals and action plans;**
- **agree on a direction for the SIC;**
- **set specific SIC goals and plan effective SIC activities;**
- **evaluate their results; and**
- **improve their SICs from year to year**

Interested in participating? Contact Karen Utter at SC-SIC (utter@mailbox.sc.edu or call 803-777-7658) for more information on the program and how to apply.
