

Flood Relief Effort to Help Affected SC Students

The SC School Boards Association, along with SC Future Minds, have collaborated to establish a statewide fund to collect monetary donations for students in school districts in the 16 state counties declared as disaster areas. Funds raised will be divided among the school districts and used for school-related supplies and programs targeting affected students and could include purchasing school supplies, assisting with after school programs, or providing a program offering food in backpacks to take home, etc. To donate, visit <http://www.scfutureminds.org/flood-relief/> or text "SCSchools" to 71777.
