

SIC Basics Training Now Available Online

SC-SIC has created three (3) online training modules as companions to the published SIC handbook, *This Is Your SIC: A Handbook for Effectiveness*. “The Basics of Organizing an SIC” module covers the numbers and types of SIC members, the methods of selecting SIC members, SIC nominations and elections, SIC officers, and membership reporting requirements; it is aligned with Appendix A of the *Handbook*. The module “The Basics of Operating an SIC” covers SIC bylaws, effective SIC meetings, Freedom of Information Act requirements, recruiting and retaining SIC members, and ongoing SIC training and technical assistance; it is aligned with Appendix B of the *Handbook*. The “Basic Local SIC Duties” module covers SIC duties related to the School Improvement Plan, participation in Plan development, setting SIC goals and implementing SIC activities, and reporting on SIC and school progress through the annual *SIC Report to the Parents* and the *SC School Report Card* narrative; it is aligned with the main text of the *Handbook*. These modules, each approximately 20 minutes in length, are designed to supplement “SIC Basics” training offered at the district level throughout the state, and can be utilized as refreshers, shown during local SIC meetings, or accessed by SIC members unable to attend a training session in person. Visit the SC-SIC website at <http://sic.sc.gov> and click “Online SIC Training” under the “Quick Links” on the right hand side of the home page.
